Special edition:

15th General Assembly and Scientific Symposium of ICOMOS
Xi’an, China
17-21 October 2005

Monuments and Sites in their Setting –
Conserving Cultural Heritage in Changing Townscapes
and Landscapes

Information about the 15th General Assembly and the Scientific Symposium is attached (English version), including the call for papers.

ICOMOS members will also receive this information by post soon, along with the ICOMOS International Newsletter. News about the General Assembly will be available during the year via the ICOMOS website www.international.icomos.org/xian2005.

The General Assembly will mark the 40th year of ICOMOS. The triennial General Assembly is a key part of the activities of ICOMOS and the theme of the Scientific Symposium is a very important one, with great relevance in Australia and in our Region. ICOMOS China is working with the International Executive Committee to make the 15th General Assembly a memorable event - not to be missed!

We hope that many Australia ICOMOS members will plan to attend the General Assembly, and will offer papers for the Scientific Symposium.

Kristal Buckley
President, Australia ICOMOS
