1) Australia ICOMOS Conference 2005
Corrugations: The Romance and Reality of Historic Roads

ICOMOS CONFERENCE 2005
Corrugations: The Romance and Reality of Historic Roads
November 25-28 2005

This week we will profile Dan Marriott, one of our two keynote speakers. Dan has been heavily involved with preservation of historic roads in America, and will be speaking on the topic of ‘Use and Experience’ at the Corrugations conference in November. For further information on the Corrugations Conference, please go to www.corrugations.net.au.

On line registrations are not yet available, but should be coming very soon! If you have any queries about the conference, please direct them to Jacqui Muir at Waldron Smith Management (Jacqui@wscom.au)

DAN MARRIOTT

Dan Marriott is Principal and founder of Paul Daniel Marriott & Associates, a historic and scenic road preservation planning office located in Washington, DC. Established in 2004, the firm
specializes in historic preservation, corridor studies, and regional planning strategies and analysis for historic roads, scenic byways, gateways and linear corridors. Prior to establishing the firm, Dan was the Director of the Rural Heritage/Historic Roads Program at the National Trust for Historic Preservation in Washington, DC. There, Dan oversaw the Trust’s work in farmland preservation, heritage areas, scenic byways and historic roads, and community and small town planning.

Dan holds a Bachelor’s of Science in Landscape Architecture from the Pennsylvania State University and a Master of Regional Planning from Cornell University. He has worked with communities across the United States and overseas, and is a member of the International Council of Monuments and Sites (ICOMOS). His areas of experience include visual analysis, gateways, community consensus development, highway safety, and historic landscapes. Principal projects include developing the Corridor Partnership Plan for the Seward Highway in Alaska, the Corridor Management Plan for the Historic National Road in Indiana, organizing *Preserving the Historic Road in America* (a biennial conference), and a current study assessing historic qualities and highway safety on the historic Kuhio Highway on the north shore of Kauai. Dan has assisted communities from Denali National Park in Alaska and East Maui in Hawaii to river towns along the Ohio and Mississippi Rivers in better understanding, valuing and managing their unique qualities and distinctive landscapes.

Dan is author of *Saving Historic Roads: Design and Policy Guidelines* (John Wiley and Sons, New York, 1998), the first book dedicated to the identification, preservation, and management of historic roads, and *From Milestones to Mile-Markers, Understanding Historic Roads* (US Department of Transportation, National Scenic Byways Program, 2004). He is author of numerous articles and has been featured in *Landscape Architecture Magazine* and *American Road* magazine and has been a commentator on several radio programs, including *National Public Radio*.

Dan has traveled extensively throughout the United States studying and working with historic road resources and helping communities better understand their history and sense of place, and planning for change. He has spoken at numerous conferences addressing historic roads, linear corridors, planning, design, gateways, community consensus building and tourism. In all areas, he works to develop solutions based on issues of place, politics and economics with respect for local heritage and the visual environment.

**WORK EXPERIENCE**

Principal
Paul Daniel Marriott & Associates
2004

Providing innovative solutions to communities and transportation offices for the management of historic and scenic road environments and cultural landscapes. Current projects include the Kuhio Highway on Kauai in Hawaii, Historic US 101 gateway study for the City of Encinitas, California and the US Route 66 in Oklahoma historic transportation training workshops for the National Park Service.

The National Trust for Historic Preservation, Washington, DC
Director, Rural Heritage Program/Historic Roads Program
1993-1998, Program Associate, 1998-2004, Director
Prepared the corridor management plan for the historic Arroyo Seco Parkway National Scenic Byway in southern California. Managing the project for the Santa Monica Mountains Conservancy and the California Department of Transportation, 2003.

Appointed to FHWA committee to develop recommendations/policy for National Register eligibility for the US Interstate System, 2002.

Worked with the native communities of East Maui in Hawaii to overturn state transportation policy that threatened the demolition of 52 one-lane bridges on the historic Hana Road. Established the framework by which the entire region is pursuing designation as a National Heritage Area, 2000-01.

Prepared nomination to the National Scenic Byways Program for the Ohio River Scenic Route in Southern Indiana. This 302-mile corridor was the first byway project to meet Federal Highway Administration criteria as a National Scenic Byway (1996). Prepared successful nominations to the National Scenic Byways Program for the Seward Highway in Alaska (1998), the National Road in Indiana (1998), the Ohio River Scenic Route in Illinois (1998), the Great River Road in Illinois (2000) and the Ashley River Road in South Carolina (2000).

Developed the "Community Guide to Corridor Management Planning" for the National Scenic Byways Program. The document, commissioned by the Federal Highway Administration, provides communities interested in designating and managing significant highways with a methodology for comprehensive resource management, 1994-95.

Developed Corridor Management Plans for two pilot roads for the Indiana Scenic Byway Program. Member of consultant team that developed the New York State Scenic Byway Program for the New York DOT. Consultant to the Illinois Scenic Byways Program and the Peak to Peak Trail in Colorado, 1993-95.

The George Washington University, Washington, DC
Adjunct Professor, Landscape Design Program
1994-present

Teaching landscape architecture design, theory, and history in the graduate Landscape Design Program.

City of Rochester, New York
Planning Consultant
1990-1991

Prepared Rochester Gateway Study. This 130-page document is one of the first comprehensive studies of enhancements for surface transportation. The study, investigated the potential for a stronger city image, developed specific design and administrative recommendations for the improvement of four primary gateway zones, and made recommendations for the implementation of a comprehensive gateway plan.

Consultant, Baltimore, Maryland
Landscape Architect/Architectural Illustrator
1987-1989

Land Design/Research, Inc., Columbia, Maryland
**Landscape Architect**
1984-1987

**PRESERVING THE HISTORIC ROAD IN AMERICA**

Founded and manage the national biennial conference *Preserving the Historic Road in America*. This four day conference is the only venue dedicated to the identification, preservation and management of historic roads, and the only conference specifically designed to engage both the historic preservation community and the transportation and engineering community.

Los Angeles, CA, 1998; Morristown, NJ, 2000; Omaha, NE, 2002; Portland, OR 2004

**PROFESSIONAL AFFILIATIONS**

**Member**, ICOMOS and USICOMOS, 2003
**Board Member**, Center for Preservation Education and Planning, Los Angeles, 2001
**Board Member**, US Route 66 Federation, 2003

**COMMUNITY SERVICE**

**Chairman, Restoration Committee** of SS. Philip and James Church, Baltimore, Maryland. Managed a million dollar restoration of a 1928 Renaissance Revival church, parish house, and grounds. 1988-1991.

**PUBLICATIONS**

**Author**, "Historic Parkway Design: A Look at the AASHTO Green Book," *CRM* Journal of the

**Author, Rochester Gateway Study.** This study, incorporated into the Rochester, New York General Plan, has been referenced by other municipalities reviewing transportation enhancements. 1991.

**TRAININGS**

Conducted Context Sensitive Design Workshop for New Mexico Department of Transportation. 2003.

Conducted Transportation and Cultural Landscapes for the Hawaii Department of Transportation. 2002

Conducted Scenic Byways Training Workshops (Fairbanks and Anchorage) for Alaska Department of Transportation and Public Facilities. 1999.

Conducted Scenic Byways Training Workshop for the Arizona Department of Transportation. 1997.

**SELECT SPEAKING ENGAGEMENTS**

**Keynote Speaker,** Landmarks Preservation Council of Illinois Annual Meeting, *Preservation at the Local Level*, 2004

**Keynote Speaker,** Kansas State Scenic Byways Conference, *Historic Preservation and the Cultural Landscape*, 2004

**Speaker,** California Preservation Foundation, *Identifying Cultural Landscapes*, 2004

**Keynote Speaker,** FHWA (Indiana Division) Context Sensitive Solutions Conference, *Community Transportation Design*, 2003

**Speaker,** American Society of Landscape Architects Annual Meeting, *Landscape Architects in Nonprofits*, 2002

**Guest Lecturer,** UCLA Graduate School of Planning, *Historic Roads and Cultural Landscapes*, 2002

**Keynote Speaker,** Massachusetts Historic Parkway Initiative Meeting. 2001

**Speaker,** National Scenic Byways Conference, *Saving Historic Roads*. 2001

**Featured Speaker,** National Road Alliance Annual Meeting, *Saving Historic Roads*. 2001

**Speaker,** National Main Street Conference, *Planning for Historic Corridors*. 2001

Featured Speaker, ASLA Teleconferencing Education Sessions, “Effective Scenic Byways Planning”. 1999

Don't forget to check out the website for this exciting conference at [www.corrugations.net.au](http://www.corrugations.net.au) The call for abstracts is now available on line. Electronic registrations should be available in early May
2005.
Events Management company Waldon Smith Management are overseeing the organisation of the Corrugations conference. Please contact them on info@wsm.com.au or telephone: +61 3 9645 6311 for further details

2) Free National Heritage Workshop in Canberra

A free workshop on the national heritage system is being held in Canberra mid-May. The workshop will cover the criteria and thresholds for National and Commonwealth Heritage lists, the management implications of listing, and the level of protection afforded listed places under the Environment Protection and Biodiversity Conservation Act (or the EPBC Act). This will include a brief review of the EPBC Act referral and assessment process.

The workshop is being held in the Sparke-Helmore Law Theatre No.1, at ANU Law School, off Fellows Rd (near Sullivan Creek), ANU on the 16th May from 2-5pm. To RSVP contact Tracey Rich on (0438) 060016 or trich@wwf.org.au. Members of the heritage community are encouraged to attend.
Website: www.wwf.org.au/epbc

The EPBC Unit is a joint project of WWF Australia, the Australian Council of National Trusts and the Tasmanian Conservation Trust

The Cultural Heritage Unit, University of Melbourne is pleased to announce

3) Golden Landscapes
Rethinking the Gold Rushes of the Pacific Rim

This conference will reflect on the gold rushes that took place in the gold settler colonies of the Pacific Rim during the second half of the nineteenth century. A key aim is to detail the complex cultural interactions that occurred in gold fields societies and examine them through the present day remnant mining landscapes.

For more than a one hundred and fifty years Australia has been one of the world's key mining countries. The comparative nature of the conference will provide new ways to consider the Australian gold seeking experience. The conference will be held in the heritage listed Castlemaine Diggings Heritage National Park, a multi-layered landscape that provides an excellent setting in which to consider the gold seeking era throughout Australia and the Pacific Rim.

Key themes for the conference include:
* Effects of the gold rushes locally, nationally and internationally
* Cultural complexity of gold fields society
* Hidden histories of the Indigenous and Chinese presence on the diggings
* Gold fields colonies and the British colonial enterprise of the nineteenth century of which it was
an integral component
* Evaluating remnant historical mining landscapes
* Pathways to a World Heritage listing for the gold fields of Central Victoria landscape that provides an excellent setting to rethink not only the Australian gold rushes but also the Pacific Rim.

Friday, Saturday and Sunday 22-24 July 2005
Conference to be held in Castlemaine
For further information please contact:
Keir Reeves, Cultural Heritage Unit

4) The Meanings and Values of Repatriation
a Multidisciplinary Conference

8 -10 July 2005
The Centre for Cross-Cultural Research
The National Museum of Australia
and Griffith University
in association with the World Archaeological Congress
Venue: Manning Clark Theatre, Australian National University, Canberra.

TO REGISTER ONLINE OR FOR MORE INFORMATION GO TO:
http://www.anu.edu.au/culture/conf/repatriation

For many years indigenous peoples in various parts of the world have sought the return of ancestral human remains and artefacts of great cultural significance from western museums and scientific institutions. Especially since the late 1970s indigenous demands for the repatriation of remains and artefacts, combined with changing perceptions of the function of the museum have led museum workers and researchers to re-evaluate the worth of keeping these things.

Things have changed greatly since 1989, when the World Archaeological Congress adopted the Vermillion Accord, in an effort to see the fate of human remains reached by negotiation on the basis of mutual respect for the legitimate concerns of communities for the proper disposition of their ancestors, as well as the legitimate concerns of science and education. New partnerships have been established between cultural and scientific institutions and indigenous communities. Human remains and culturally significant objects have been returned to the care of indigenous communities, although the fate of bones and artefacts in a numerous collections remains unresolved and, in some instances, the subject of controversy.

It seems timely to take stock of what has occurred since the Vermillion Accord by a conference that hears from museum personnel and researchers who have been involved in repatriation, and from indigenous community representatives and knowledge custodians charged with the responsibility of reclaiming remains and culturally significant items. We need to ask what have been the benefits of repatriation? What have been the problems? And have the concerns of indigenous people, scientists and educators been equally well met?
Further, looking back over the past two decades, a noticeable feature of repatriation has been that it has seen much debate and interaction between indigenous people and researchers in disciplines with direct interests in the continued scientific preservation of human remains. Yet, it has become clear that repatriation is a complex phenomenon with cultural, historical and ethical dimensions that we would do well to explore. We are therefore also keen to learn from specialists in other disciplines such as history, philosophy, law, and cultural studies who are exploring the meanings, values and uses of bodily remains, sacred places and things.

6) National Archaeology Week
15-22 May 2005

Australian archaeological associations and institutions will host the 3rd National Archaeology Week this month! The week is organised by committees around Australia. For the program of
7) News From Heritage Tasmania

HERITAGE-NEWS: MAY 2005
A bulletin from Heritage Tasmania

Heritage Tasmania has introduced this monthly bulletin service as part of its work with the Tasmanian Heritage Council.

Port Arthur opens new convict trail
A new walking trail and guidebook has been added to the many attractions at the Port Arthur historic site. The 600 metre trail aims to take visitors beyond the manicured lawns and gardens into the surrounding bushland, and highlights the effort required to supply water to power the penal settlement’s flour milling enterprise.

York Town archaeological program funded
Archaeological work at the historic York Town on the West Tamar will commence later this year as a result of a State Government Tourism Infrastructure Fund grant.

Tasmanian Community Fund Supporting Heritage Projects
The Tasmanian Community Fund (TCF) was established in 1999 to provide grants to community organisations for projects that make a difference.

Local Council joins in with National Archaeology Week
To coincide with National Archaeology Week 2005 (May 15-22), Southern Midlands Council are planning to undertake archaeological remote sensing exercises, in conjunction with Oatlands District High School. With the support of Don Ranson of the Aboriginal Heritage Office, resistivity surveys will be undertaken on the Oatlands Court House, Gaol and Callington Mill sites. These surveys aim to establish the existence and locations of site features in these historic precincts and are part of the larger Oatlands Military Precinct and Callington Mill projects. Community involvement will be encouraged through the Oatlands District Historical Society and Oatlands District High School, as a means of raising public awareness of the significance of these archaeological sites, as well as introducing different aspects of archaeological practice to the community.

The surveys are proposed to be undertaken on May 16, 20, 21, 23 and 27. For further information please contact Brad Williams, Heritage Project Officer, Southern Midlands Council on 03 6254 5048 or 0418 303 184 or email bwilliams@southernmidlands.tas.gov.au

The history of Hydro Tasmania
Hydro Tasmania is leading the way in corporate responsibility towards heritage assets with its Cultural Heritage Program.

Lunchtime Seminar Series
Tuesday, 31 May 2005: Cultural Heritage Tourism (Hobart)
Deb Lewis, from Tourism Tasmania will discuss the issues facing promoters and managers of cultural heritage sites as they strive to balance the tourism dollar and conservation. Venue: Conference Room, Level 6, 134 Macquarie Street, Hobart. Time: 1.00pm - 2.00pm. For further information contact Ester Guerzoni at Heritage Tasmania on 6233 4152, or email...
Thursday, 23 June 2005: Growing up at Home Hill (Devonport)
Barry Lyons, the youngest son of Tasmania’s only Prime Minister, Joseph Lyons, will share his story of growing up at Home Hill. Venue: The Federation Room, Devonport Entertainment and Convention Centre. Time: 12.30pm  1.30pm. For further information and to RSVP, please contact Ester Guerzoni on 6233 4152, or email ester.guerzoni@heritage.tas.gov.au

Introductory Thematic Workshops
20 May 2005, Hotel Grand Chancellor, Launceston
28 May 2005, Geeveston Forest and Heritage Centre
As a key part of the implementation of the Tasmanian Experience Strategy, Tourism Tasmania is pleased to advise that Sam Ham will be conducting two introductory thematic interpretation workshops during his visit to Tasmania in May. Sam Ham, a Professor at the University of Idaho, is a world expert on thematic communication. He has published numerous books, papers and articles on thematic interpretation and has conducted training in more than 40 countries. The workshops are aimed at people who are dealing with holiday visitors as part of their job and have not participated in his workshops before. It is guaranteed to provide you with practical skills and ideas for the delivery of messages with impact based on the use of themes. Workshop numbers are limited and registration is required. The cost of the workshop is $45. To register, or for more information, please contact Robyn Geason on 6230 8360 or email robyn.geason@tourism.tas.gov.au.

2ND International Engineering Heritage Conference
Sustaining Heritage
21-23 September 2005, Sydney
This conference will explore issues in the conservation and management of engineered and industrial heritage assets as well as present successful techniques that can help participants carry out their jobs more effectively. It will be a conference for not only engineers, but for all who are interested in heritage conservation. For further information visit http://www.sydney.ieaust.org.au/heritage/heritage_Syd_Confa.htm

The 2nd International Conference on Environmental, Economic and Social Sustainability
9-12 January 2006, Hanoi and Ha Long Bay, Vietnam
This conference aims to develop a holistic view of sustainability in which environmental, cultural and economic issues are inseparably interlinked. It will work in a multidisciplinary way, across diverse fields and taking varied perspectives in order to address the fundamentals of sustainability. Conference papers are now being called for. Papers submitted for the conference proceedings will be fully peer-refereed and published in print and electronic formats in the new International Journal of Environmental, Cultural, Economic and Social Sustainability. The deadline for the next round call-for-papers is 1 June 2005. Full details of the conference, including an online call for papers form, can be found at http://www.SustainabilityConference.com

For more info on Heritage News contact Ester Guerzoni on 6233 4152, or email ester.guerzoni@heritage.tas.gov.au
www.heritage.tas.gov.au

8) News from ICCROM
COURSE ANNOUNCEMENTS

Conservation of Textiles in Southeast Asian Collections
Applications are now open for the course on Conservation of Textiles in Southeast Asian Collections to take place in the Netherlands from 24 August - 17 September 2005
Application deadline: 16 May 2005

NEWS

Completion of the ARIS05 Course
2 May. The ARIS05 Course was successfully concluded on 29 April in the presence of the Director of the Getty Conservation Institute, Mr Tim Whalen, members of ICCROM's Council, and representatives of the diplomatic missions in Rome.

Involving Tourism Offices in the Protection of Cultural Heritage
29 April. After having successfully raised awareness of editors of tourist guidebooks, ICCROM and UNESCO are now targeting the National Tourism Offices. In order to prepare a larger event scheduled for September 2005, ICCROM invited a number of directors of the National Tourism Offices in Rome to a consultative meeting.

ICCROM Technical Assistance Service
The Technical Assistance Service (TAS) has been recently re-established. The service has been set up to encourage and support the development of cultural heritage conservation worldwide. It provides minor equipment and supplies, didactic material, conservation literature, annual subscriptions to conservation periodicals and photocopies, free of charge.

9) Government Media Releases

TITLE: WORLD HERITAGE MANAGEMENT SPANS THE AGES
MEDIA RELEASE 29 APRIL 2005
Environment and Heritage Portfolio
SNIPPET: A landmark agreement signed today, will see Rainforest Aboriginal groups formally involved in managing Australia's Wet Tropics of Queensland World Heritage Area. "Cooperative management flowing from the Wet Tropics Regional Agreement will benefit both the Aboriginal and wider community as well as the environment. "The Agreement formalises the significant contribution Rainforest Aboriginal people can make to the Wet Tropics heritage values", Mr Hunt said.

TITLE: ABORIGINAL PLAN CHAMPIONS COUNTRY, CULTURE AND COMMUNITY
MEDIA RELEASE 5 MAY 2005
Environment and Heritage Portfolio
SNIPPET: The new Wet Tropics region's Aboriginal Natural Resource Management Plan has been
welcomed for its focus on the integration of the three C's - Country, Culture and Community, the Australian Minister for the Environment and Heritage, Senator Ian Campbell, said today. Launched on Friday, the plan maps out the Wet Tropics cultural and natural resource priorities and provides a basis for investment from the $1.4 billion National Action Plan for Salinity and Water Quality. Senator Campbell said the plan identified and addressed threats such as vegetation clearing, wetland modification and altered fire regimes that are affecting the sustainability of Australia's unique Aboriginal rainforest cultures.

10) Situation Vacant
ARCHITECTS

Otto Cserhalmi + Partners Pty Ltd is an enthusiastic, award winning firm located in the leafy suburb of Glebe, Sydney. Due to our workload we need two additional full-time staff:

* Architect (or associated professional) with expertise in heritage assessment and conservation planning with good communication and writing skills.
* Recent graduate architect proficient in Autocad. Interest in heritage conservation an advantage.

Remuneration commensurate with experience. Initial brief applications by email or fax (preferred), or phone.

Email:otto@ocp.net.au
Fax:(02) 9660 5021
Phone:(02) 9552 3800

11) Call for photos from the Telling Tales conference, Sydney, November 2003

We are looking for photos taken at the conference or its associated events, for possible inclusion in the Telling Tales issue of Historic Environment.

Surely there are many budding young Fox Talbots, Cazneaux or Dupains out there who were busily trying to capture or interpret other people's interpretations at the conference.

If you have some great (or not so great) images, preferably good quality digital, no matter how whacky, we would like to see them. VERY SOON!!

Please email images, together with the name and contact details of the photographer, to Alan Croker alancroker@design5.com.au

12) Australian ICOMOS members
Attending the GA in Xian
Dear Members,
It is becoming apparent that there will be a number of members attending the 15th Assembly in Xian, China. Whilst many of us are still puzzling over how to get there as economically as possible, it would be great for the Australian contingent to get-together the evening before the start of the Assembly i.e. Sunday 16 October. Closer to departure time, around the beginning of October, we hope to organise a Xian venue to meet & greet Aussie souls from near and far. In addition to contact details, if known already please email where you will be staying etc, send details to stepowsk@tpg.com.au.
Looking forward to seeing you all there - Sue Jackson-Stepowski
